

# Richard E. Duval

---

Photographer, writer, musician -- **Richard Duval** travels the world capturing scenic and landscape images when he's not on assignment. Of late, his photographic focus has been the vineyards of the Pacific Northwest, California and Italy. Recent assignments include *Vermont Life*, Microsoft and Holland America Line.

His photographs can be found on note cards, galleries, and bookstores as well as in various art fairs and shows, and several stock sites. Duval exhibits regularly at Harbor Gallery in Gig Harbor, WA and Musings Artist Inspired in Mill Creek, WA. Over 300 of his images are licensed for stock use by Danita Delimont Stock Photography.

Duval lives near Mill Creek with Leslee who creates the personal note card lines, and Brunello, the wine dog.

He captures his images with the digital Nikon D700 and does his post-processing with Lightroom 3 and PhotoShop. His film work is captured on Velvia and Provia slide films, using Nikon F3 and FM cameras, Nikkor lenses, and a variety of filters. Most slides are scanned on a Nikon Coolscan V slide scanner and select images are scanned by The Color Group on the Crosfield Magnascan 636 drum scanner. He prints his gallery and fine art prints on Epson professional inkjet printers on gallery papers using pigmented archival inks.

In between photo sessions, Duval's main love is the piano. His CD *Notes to Myself* is a re-issue of an early work featuring tracks digitally remastered to enhance his intimate musical stories, including a bonus track of new material. *Notes to Myself* contains haunting melodies, some composed; some completely improvised.
